# ABOUT US...

Step into a new era of wedding entertainment. We're not your average DJ company — we're a tight-knit crew of music-obsessed professionals who transform weddings into unforgettable experiences. Our setups are sleek, stylish, and designed to stand out, creating a vibe that's as sharp as it is immersive.

We know the “cheesy wedding DJ” stereotype — and we're here to bury it. Our DJs mix like they're headlining a festival, blending genres, reading the room, and keeping the dance floor alive from first song to last. Rustic barn, chic city loft, or something wildly different — we've got tailored DJ packages that slot seamlessly into your aesthetic and amplify it.

And we do more than spin tracks. We handle your key moments with ease, from the big entrance to the final track of the night. Smooth & professional — we make your wedding feel effortless while keeping the energy sky-high.

# Evening Packages, **Dinner, drinks & dance & Full day packages**

Go for our evening packages to kick off a night of pure dance-floor magic, or level up with our dinner-to-last-dance options for wall-to-wall music and momentum. We've got the grand entrance, the speeches, and every unforgettable moment handled with style. Want the full experience? Add ceremony and drinks reception coverage for an all-day soundtrack that flows effortlessly from "I do" to "let's party."  
Let's make your wedding legendary!

Prices start from £690

# UPLIGHTING

Uplighting is a lighting technique where lights are placed on the floor and pointed upward to cast beams on walls, columns, or architectural features. It is used to create ambiance, add color, and highlight specific elements in a room, transforming a space for events like weddings, parties, and ceremonies

Uplighting transforms any venue  
From barns to ballrooms, uplighting can make even a plain room look elegant and unique. We include 8 wireless units in every booking. Additional lights can also be added to your package.
